HUMBOLDT COUNTY REPORTS 52 COVID-19 CASES FOR THE MONTH OF AUGUST

WINNEMUCCA, Nev.—Humboldt County has been notified of 52 new cases of COVID-19 from Monday, August 1, through Wednesday, August 31, bringing the county's cumulative total to 4048.

This total does not include positives from home-based or over-the-counter tests, as they are not included in official counts. In comparison, 121 positive cases were reported for the month of July.

The county has 3980 recovered and seven active cases. During the month, three people have been hospitalized; no people are currently hospitalized. In all, 61 county residents have died from the virus, including a man in his 70s who passed away in August.

In other news:

- Patients may screen for COVID-19 through the Humboldt General Hospital Walk-In Clinic or through their HGH healthcare provider; three parking spots have been designated in front of the hospital's Mizpah Street side entrance where patients are tested. All patients and/or visitors must wear masks.
- Humboldt General Hospital is offering COVID-19 home tests free of charge at its main entrance and in patient clinics.
- If you suspect you have been exposed to COVID-19, if you are experiencing COVID- like symptoms, or if you have tested positive for COVID-19, please follow [this guidance](#) from the Centers for Disease Control and Prevention very carefully to mitigate the spread of the virus.
- As of today, 18,519 (+228) total COVID-19 vaccine doses have been administered including 8,235 (+23) initiated doses and 7,314 (+22) second doses. Currently, 48 percent of our population has initiated vaccination and 43 percent has completed vaccination.
- Of August's 52 reported positives, 17 or 33% were fully vaccinated, meaning a person completed a vaccine series, whether one dose or two, and two weeks have passed. A person does not have to be boosted in order to be considered fully vaccinated.
- Humboldt County has had nine breakthrough infections, meaning a fully vaccinated person who was hospitalized. Per the information provided by the State of Nevada, Humboldt County has had one fully vaccinated death.
- Humboldt County is a low-risk transmission area according to the Centers for Disease Control [county tracker](#).
- As a reminder, as of February 2022, Nevada no longer requires masks in public places; however,

employers and organizations, including school districts, have been encouraged to set their own policies as needed.
